

RAÚL MARTÍNEZ

+52 55 7490 8700 - Malaga Sur 17, Insurgentes Mixcoac, Mexico City - raul200402@outlook.com

Recently graduated engineer with experience in back-end development, data analysis and processing with Python, API design, and database integration. Experience includes projects focused on metrics analysis, report automation, and digital solutions development. Seeking opportunities in data analysis, web development, and customer success where I can contribute a solid technical foundation, attention to detail, and the ability to work systematically with information and systems.

SKILLS

-
- | | | | |
|----------|---------|-------------------------------|------------|
| • Python | • SQL | • Microsoft Office Suite | • Power BI |
| • HTML | • CSS | • JavaScript | • Django |
| • GitHub | • Figma | • Agile Methodologies (Scrum) | |

EXPERIENCE

Web System Operator 2026
Latamco y Estrategias Creativas
Company dedicated to creating applications for promotions at Cinépolis and Coca-Cola.

- Tracked user activity and performance metrics through a dynamic platform, including participation, weekly scores, geographic activity, and engagement indicators.
- Prepared weekly performance reports to communicate key metrics, trends, and campaign activity.
- Analyze platform data to identify changes in user participation and performance across different regions.
- Supported data-driven monitoring of promotional campaigns developed for clients

Data Science Assistant 2025
LUYOA
Startup that offers digital loyalty cards for smartphones, without the need to download an application.

- Developed a Python/Pandas analytics pipeline to transform customer, transaction, merchant, and loyalty data into actionable business insights and KPIs.
- Analyzed churn, retention, CLV, repeat purchases, customer segmentation, and transaction trends to identify high-value and at-risk customers.
- Evaluated merchant and loyalty-program engagement through transaction activity, reward redemption, visit frequency, and customer behavior.

Backend Developer 2024 - 2025
iOS Development Lab UPMX
I collaborated in the development of ConnectUP, an application aimed at facilitating the management of data and classes for collaborators of Universidad Panamericana.

- Supported server programming and database integration with APIs created in Django REST Framework, strengthening the application's back-end functionality.
- Worked in coordination with other development areas to support the connection between APIs and front-end interfaces, improving the project's technical collaboration.

ACADEMIC BACKGROUND

-
- | | |
|--|-------------|
| • Universidad Panamericana, Master's Degree in Engineering | 2025 - 2026 |
| • Universidad Panamericana, Specialization in Engineering and Project Management | 2024 - 2025 |
| • Universidad Panamericana, Information Technology and Intelligent Systems Engineering | 2020 - 2024 |

COURSES AND CERTIFICATES

-
- | | |
|---|------|
| • Santander Open Academy, Cybersecurity Fundamentals | 2026 |
| • Universidad Panamericana, Diploma in Data Science | 2025 |
| • Cisco Networking Academy, CCNA v7: Introduction to Networks | 2023 |
